

# RAINBOW DENSITY TOWER!

SEMA'S  
LAB

## LIQUID DENSITY TOWER

### What to do:

1. Pour out equal amounts of each of the liquids in plastic cups
2. Slowly add each of the liquids into your glass or cylinder
3. You will notice that the liquids do not mix at all but form 7 different layers
4. Feel free to add in any other type of liquid to your mixture, the more the merrier!!

### Ingredients:

- Honey
- Glycerine
- Dish Soap
- Water With Food Coloring
- Vegetable Oil
- Glass/ Cylinder
- Plastic cups
