

BAKING SODA AND VINEGAR BALLOON BLOW UP!

SEM'S LAB

BAKING SODA AND VINEGAR BALLOON BLOW UP

What to do:

1. Using the funnel, add about 1/3 cup of baking soda into your balloon.
2. Remove the balloon from the funnel and set it aside
3. Add the vinegar to the empty bottle, filling it up to the quarter mark
4. Now, fix the balloon to the mouth of the soda bottle and lift it up so that the baking soda falls into the bottle
5. Watch the balloon fill up with air!

Ingredients:

- 1 cup (250 ml) of white vinegar
- ½ a cup of baking soda
- 1 balloon
- An empty 2-liter soda bottle
- A funnel
- A spoon (optional) to help scoop the baking soda
