GLOWING BOUNCY EGG

What to do:

1. Fill your 3 glasses with about 1 ½ cups of vinegar
2. Add food coloring to each of the glasses using your spatula and mix it using the stirring rod.
3. Add your eggs to the vinegar and leave them for 24 hours.
4. After 24 hours, the eggs will feel like rubber when you touch them. Try to bounce them around like a ball and see the magic.
5. To see it glow, go to a dark room and light the flashlight below it and ALAS!!!

Ingredients:

- 3 Glasses
- 3 Raw Eggs
- A bottle of white vinegar
- Spatula
- Food Coloring / waterproof paint
- Flashlight
