

# WALKING WATER EXPERIMENT!

SEM'S  
LAB

## THE WALKING WATER EXPERIMENT

### What to do :

1. Place 7 cups in a row and pour in 1/2 a cup of water in the 1st, 3rd, 5th, and 7th cup.
2. Add a drop of food colouring/ waterproof paint in the cups with water and stir using the spatula.
3. Take a half sheet of paper towel and fold it in half lengthwise and place it in the cups
4. You should quickly be able to see the colored water begin to crawl up the paper towel.
5. Leave for about 3 - 4 hours and you will see the magic of the water mixing as a rainbow.

### Ingredients:

- Food colouring or waterproof paint (4 different colours)
- 7 clear plastic cups
- Spatula
- A jug of water
- Stirring Rod
- Paper Towels
